FEMALE SECURITY AND HUMAN RIGHT PREVENT

FEMALE ABORTION

Dr. V.G.Gojiya ,Dr. P.R.Maru*

INTRODUCTION

Female abortion is a social problem in 14th and 15th century before the five hundred to six hundred years ago it was a custom of daughter makes drink milk. Therefore at that time also daughter place was law in the society. After it today we are enters in 21st century, society is well- educated but before daughter makes drink milk in place of it with the help of the technology of medical science and sonography after born the child sex, if there is a female child in mother embryo. It will abort or doing the female. Infanticide old rule and inferior mentality of human is the field of economical, scientific and cultural.

As a result of development of human being and the development in the modern technology in medical science and with the help of modern equipments after knowing the female baby is in the embryo with the help of abortion. She is killed in the embryo before born. It is imputable for our well educated society. There is a killing of one life. It is also a mercy. This reality not looks well according to the humanism.

I the present age also, in the liking of Indian child, in the comparison of daughter we give more importance to son. This bitter truth is published by British medical journal. Don't age nice by reading it that we have stopped to born about the two corer of daughter in the importance to son born. Because of it in India, there is an incensement of an inequality of sex in India and it is also the subject of worried. The recent research is take in the hand of Rajkumar the student of university of Toronto in Canada and prabhatpur and India's chandighadh's past graduate institute of medical research student. He research the 21 lakhs of family in India and he give result by it. In the age of 1901 in India there was a result population of female was 972. In the comparison of 1000 male. The beginning of 21st century it is a 933. And for that cases of incensement of female abortion plays important role in the decrement of female figure. Government has prohibited female abortion lawfully. The prohibition law. Check before born id authorized since 1994.

But with the broken of it. Female abortion is generally continued according to the research in every years in India about 5 lakhs female embryo is destroys and the result is showing. And after sometime it creates so many question and problems.

If we check the female figure in India and its different states, then in India and in Gujarat state if we show the female figure according to one 1000 male for every 10years, so in the comparison of male figure. According to the census of 2001 in the comparison of country in Gujarat, there is a decreasing of twelve female in Gujarat sex-ratio which is the worried of state in place of country.P

REASON OF FEMALE ABORTION

If we check the history of middle age and British age. It was believed that woman's place was inferior than male are was a rule to become female baby drink milk there was a rule to throw from the mountain, and the rule of crushed under the legs of an elephant, and also the different types of reason behind it. Female baby was born at that time but in the present modern age female baby is killed in mother embryo before she is born. So it is proved that we are become modern in only living and living and cloths. But even today our thinking are tradition there are so many reason behind the abortion.

- 1] Society has male dominated from the centuries.
- 2] In the most of the cases male earn the money that why money power is in the hand of male.
- 3] It will be a necessary of son to continue their descent and it is not only the necessary of family but also the necessary of whole society.
- 4] Daughters are belonging to another person's trust and the son is known as the site of old-age that type of belief.
- 5] If son doing funeral activity, doing person will go to the heaven and it is also a religious belief which is produced and made deceptively by pundits.

Except it, there are so many reasons the abortion.

Female embryo creates imbalance gender proportion. It shows the female figure is decreasing in the comparison of male. Countries and Gujarat census figure shows us that

the female figure is constantly decreasing. And after sometimes it creates so many questions.

- 1 Sexual harassment
- 2 Question of female irritation
- 3 Problem of rape and suicide
- 4 Custom of creation of polyandry
- 5 Hid napping marriage
- 6 Professional sexual relations
- 7 Gay relation
- 8 Unmarried condition

***Attempts of prevention of female abortion**

Oh! Brother why have you done abortion?

Investigator will go in the root of this type of questions. It you studying with definite faith, you will get the true result and you will also get usefulness. Today government has take question in his hand and it will be a result able. This is a forestation and self financial, government will make lawfully and arrangement of economical security and if it follows strictly, then for the result of social difficulties, it will be create a confidence and hat daughter will flows dramatic air house to house. Government of Gujarat try hard to stop female abortion by its save daughter means the sea of love. Who specks that the daughter is bundle of snakes? She is the basic of sand. Daughter born and she will be mother. Government and social organization also try hard to stop.

Female-abortion, for example.

Check before born prohibition act is stated since 20th September 1994. From 14th February 2002 in this law and from 20th January 2003 it is improved now this law is known as the per-concentration and prenatal detonation technique. So it is known as the method of check before born. Prohibition act before pregnancy. According to this law check before born crime. In this law at the first time there is a punishment of 10,000rs. And three year jail and at the breaking of this law at the doctor breaks registration will also cancel, according to this law. And the arrangement of also in this law but also the female- abortion process is continue. Doctor's contribution in prevention of female- abortion.

Doctor's world will able to contribute lot in this world. It is demand of today that India medical association and the different organization of health professions and its national, state, districts, town and village branch have to organize for people a waking and working camp for that subject also and local co-operative organization co-operative of female abortion and it is the demand of today.

Contribution of education world in the prevention of female abortion

The root female abortion is deep. It's are social, cultural and religious. So this problem prevents by the process of value transformation. As a view of economic speedy transformation will come in fashion. But if you want transformation in old belief and in old thinking, you have to change the tender mind of school adolescent with the programme of science and evolution and if you are able to give good education, it will possible to prevent difference between gaughter and son and it will be simply. It presents time this process is done by Gujarat government. They include the school and colleges and make then medium and attempts for the awareness and it's related education seminar also organize in educational organization.

Contribution of saints and leaders in prevention of female abortion.

Our society constituter, saints, public leader, parliamentarian, members, MLA etc people will have continuing the oppose of abortion sin in public and to stop abortion and with help of religious, cultural and by all influential mediums, heartable speech would have given with the help of the peoples awareness and true knowledge and with the incensement of understandind, it will be possible to prevent this social stigma.

Responsibilities of society

Constructive role of the leader of religious organization.

Attempts to solve this problem by peoples awareness.

Necessity to take the help of doctors and maid servant

To prohibited lawfully on yhe advertise of check before born

To give information about simple and securable embryo

Acquainted with sex educational

Health centre can play suitable role

Saarth

To take proper steps accorded to Unisef's report

Awaking the female group and play constructive and working role

To teach female the lesson of religious and education and attempts to remove the inequality

Give scientific and knowledgious understanding to female convince whole process and give information to make society balanceable

Other attempts of prevention

In the comparison of male, in the rot females less proportion, peoples traditional thinking, mentality and son's with are responsible. To remove it, for the social and cultural value to run educational programme. Son daughter equal, give daughter equal justice, spread this type of thinking which government do in save daughter programme.

Conclusion

To stop female infanticide government and other institution are attempting in present time. This responsibilities, political leaders, saints, sociologist doctor and teacher will have taken. And to stop female infanticide try again and again. It there two method use influentially, then you will make transformation in it. To know the times and females equality come before as possible as, and it is good for society and country. For the progress and development male female equality is fundamental things.
