Human Right Definition or define

Dr.Malade.M.Adedara*

It is said that human right means born success proud and as result of fundamental freedom stated rights. These rights with citizen and political right doing important work, with social economic and cultural event give opportunity to human to live life. Important fact is that nature rights, social agreement and constitution rights human rights also gathered.

Breach human right:

Human Right is related state forwarding with persons proud but put person's proud aside lot of cases of human right breach are happen every day cases of human right reach are showing in all the country like blooming growing and growing. But the countries which have in democratic state administration in those types of countries it is more recorded in those type of countries, breach of human right stretches as the stage of persons billing. In the democratic countries, also with constitution right fundamental rights care and winging related by state moral expounding is reflected but human rights are breaching steps to steps.

Human Right protection diplomacy in India

If we speak about the human related right in India, it is starting first human right from the ancient time. If we see according to the constitution, there are lot of citizen and political rights and speech freedom expression freedom types of fundamentals, rights are giver after India become republican and slave custom remove drudgery are important works also telling in the hands. When at the international lever human rights related awareness is coming than human right related lot international agreements are repeated by India and it can't; able steps in it. Moreover in 1993 under human right act national human right arbitration is made. At this type welfare state accepted India had made the entire possible try for human rights secret execution.

Women who brought human Right in India

When we are talks about the women than we have to accept that women are become the victim of different types of violence, before born in the form of abortion and after born since the time of born thing are become victim of different violence inform of the female

exploitation there is not more awareness print out by social and political organization for that this condition is increasing. It is not enough but if victim is woman that man and agencies of justice organize process also store women as a right for the female.

Prevention of female infanticide or abortion:

It is said that humanity first century will Indian century, number of progress are also uncourageous but one thing is fact that we are not blooming the male female equality in the arrangement of father dominated Indian Society female place is Dependent of sub ordinate.

In family female is run according to the suggestions of male member like father, brother husband and son. Moreover father dominated argument religious and cultured strict form it is belief in the social frame that is the comparison of female male are constant and more helpful to society that reason societies mind send is become male dominated, its changed result comes that if new born child is female its is killed in the embryo. Abortion is come in front of us as country's fierce social problem, Indian's progressive states are also not rejecting from it. Where education proportion is good and in this type of city in the of 6years age group difference of sex proportion is worried able. In the present study essay to stop female infanticide, it is the controversy of different Gov. Attempts.

Moreover every society has this type of condition that in result of any problem government will helpful. At one side sixty years will finish of government sound of disappointment is over flooded but one reality is that we are showing governments will helpful. At one side sixty years will finish of getting democracy informs of governments sound of disappointed is overloaded but one reality is that we are showing governments attempts in any root of problem the condition of glottalization is that spread but human being wish that government has do something. It is not a criticize because it is one of the principle of welfare state. At this site country's citizen wish governments co-operate and it is suitable and at the other side government also active to solve this problem. In this circumstance, attempts of government to stop abortion it become the subject of seminar and it is suitable according to me. It is facing that government also active to solve this problem. In this circumstance, attempts of government to stop abortion it become the subject of seminar and it suitable according to me. It is facing that government money power men-power and machine power is present that is why government management provide any program from city to village and it is also simple Behaviorist said that "non-government is effective but after the succession of polio vaccine and tuberculosis program alike" with experience it is said that government is also effective, in this talk additional people awareness program measuring providing people awareness agitations working detail and it is how much resettable its detail in presenting which from state health and family welfare department by visiting system it is collecting.

Steps taken by government to stop abortion or female infanticide.

1] Steps taken by State

Chief Minister has present worried sound abortion and under save daughter program challenge persuading agitation. In which village where female proportion is decreasing in this type of villages' chief minister presenting and in the form of move he gives the velocity to the people awareness program he sessions with all the argument worries and health officers of state and he consent to secure daughter by people awareness.

Moreover governments all the ministers of state who adapted different typed of districts where they go and in the form or move give the responsibility to stop abortion by awareness of village people meeting and workshop for.

There was also a planning of states lot of self institution identification government officers and political leader in which ministers and M.L.A were also presenting.

2] At a Religious level

By state health and family welfare committee to call the different leaders of religious set of Gujarat and the talk of stopping female infanticide in their lecture and this attempt is taken in hand. As a result of it religious leaders are also giving the message in theory lectures of give birth to girls for erg. Religious said blessing when in place mother of son, mother of child which type of blessing is given.

3] At a administrative level

Additional Director of health department the chief district health officer and health worth who are connected with village; and society state forwarding they are also connected in this works. This also information of DC and PNDD act gives the district appropriate authority in the entire district. And for that high courts sensor advocate and high police officers help is taken.

Panel of senior advocates are made to run the case if someone who bribe the laws or female infanticide and whom give the information to run the case seriously. There is also a case watch notice given to stop check before born in any palace of state. There is also a sting operation taken in hand by health department to arrest the doctors who checks the gender or child.

P4] At an information, education and connection level.

All the districts and in big cities or state there is a panel of Doctors and teacher is made to give the explosions to stop female infanticide. Electronic media and in print show the advertisement which shows the thinking of save daughter

5] At a Labeling Level

An immediate influence of breathing of PNDT act about 129 ultrasonic sonography machines is secured.

***Governments Attempts? How Much Success?**

According to the census report of 2001 in the 1988 calculations Gujarat gender proportion recorded that it was decreasing type group. According to these numbers in the forty three fatuity of state male female gender proportions inequality was very contrary not a numbers of census but born die records method 2001 and 2005 by its number we are seeing all the attempts of government to stop female infanticide which use given in the following table

CRT-DATA (Born Registration)

SR	Taluko	District	Year2001	Year2005
1	Ahmadabad	Ahmadabad	785	818
2	Detroj Rampura	Ahmadabad	786	820
3	Daskoi	Ahmadabad	775	856

In the above table it is said that instead of members of census 2001, according to the civil registration system year 2001 and year 2005 members are present. But its liking support is according to the report of 2001 census in which 43 taluka of state where male-female child gender proportion is unequilibrium and it is the support of it. According to ten members of from fourty three taluka in twenty nine taluka 0 to 6 years age group slow incensement is recorded. Born registration is compulsory but it is not spread totally. In this type of situation, we hope that in the male female gender proportion incensement which member shows and it will be encouragious. Not amuch solid but better condition is creat and in it government attempts are also helpful. It is said that, we have not become to hopeful that picture of male female gender proportion unequal will fastly slower pink but costant tries are hope the fruitful result. Attempts are continuing and it is one result of it.
